

STATEMENTS OF CANDIDATES - NON PARTISAN OFFICE

Statement of **PHIL SERNA**, Candidate for **Board of Supervisors, District 1**

Occupation: Sacramento County Supervisor, First District

Age: 50

Qualifications: It is an honor serving as your county supervisor and I look forward to the work ahead.

Together, we will continue shaping policies and finding resources to help the most vulnerable among us. Children seeking family stability, those suffering illness and disease, the elderly, homeless individuals and families, and people in poverty all deserve opportunities to succeed. I will fight even harder for them because it helps us all.

Together, we will sharpen our focus on the environment. The American River Parkway is our region's "crown jewel" and Sacramento County must do what is necessary to make it clean and safe for everyone to enjoy. I will continue leading efforts to make this happen.

Together, we will increase investments to help great Sacramento County neighborhoods like South Oak Park. I pledged to improve the quality of life for those living in this community. Today, South Oak Park has a new Family Resource Center, new park and public transit facilities, and improved services, but we must reduce crime and increase job opportunities for residents.

Let's achieve these and other objectives together. I respectfully ask for your vote beginning the week of May 8 to June 5, 2018. Thank you.
